

ATTENTION HARTFORD RESIDENTS!

New Trash Collection Schedule

EFFECTIVE MAY 2, 2005

To maintain clean neighborhoods and establish a high standard for quality of life in our city, the waste collection program will be divided into five areas. Each area will be collected on a specific day, starting with Monday in the South and ending with Friday in the North. The collection of trash, recyclables and bulky waste will be performed on the same day.

This will change the waste collection day for some residents and businesses. Others will have

the same collection day as before. Please refer to the map above to determine when your trash collection day will be on or after May 2, when the new plan goes into effect.

By streamlining the collection route areas and the service delivery system, our Public Works Staff will be better able to provide service, in a timely fashion, to our residents, in all seventeen neighborhoods, while keeping our City clean and looking good.
